ABOUT ME

Seeking a position in the field of Computer Science where I can utilize my skills to further work towards personal and professional development and contribute towards the prosperity of the organization.

EXPERIENCE

Edunet-foundation& APSCHE Partnership

Front-End Developer Intern

JUNE-JULY 2023

- Developed and launched a captivating Portfolio Website, leveraging HTML and CSS to deliver an immersive user experience while showcasing educational qualifications and skills. Participated in pre-project analysis and technical assessments to validate creation of user-friendly interface.

PROJECTS

Online Shopping App for Instagram Saree Sellers

Personal Project | React Native, FastAPI, SQL, Firebase-ongoing

- Developed an online shopping app specifically for Instagram saree sellers, enabling users to showcase and categorize products.
- Implemented user authentication and product management features with React Native for the frontend.
- Built a scalable backend using FastAPI with Python, integrating SQL for database management.
- Utilized Firebase for image storage, allowing seamless product image uploads and sharing.

Front-End Developer Intern

IBM Skills Build Internship | Edunet Foundation & APSCHE Partnership (June 2023 – July 2023)

- Developed and launched a captivating portfolio website, utilizing HTML and CSS to create an immersive user experience.
- Showcased educational qualifications and skills effectively, highlighting design and development expertise.
- Leveraged responsive design techniques to ensure compatibility across various devices.
- GitHub Repository: [Portfolio Website](#)

E-commerce Shopping Site Development

Personal Project | HTML, CSS, Bootstrap

- Designed and developed a fully responsive e-commerce shopping site using HTML, CSS, and Bootstrap.
- Optimized for mobile and desktop platforms, ensuring a consistent user experience across devices.
